Homicide Investigation

The Birmingham Police Department is conducting a homicide investigation after three victims were shot. The incident occurred on Tuesday, January 31, 2022.

The victim has been identified as:

Corieonna Shantrice Hines, (24), B/F, of Birmingham, Alabama.

At around 10:20 PM, North Precinct officers were dispatched to the 100 Block of 9th Avenue West on report of multiple people shot.

Officers arrived on the scene when they entered an apartment and discovered the victim lying unresponsive suffering an apparent gunshot wound.

Officers also observed a 13-year-old female juvenile along with a 7-year-old female juvenile suffering from an apparent gunshot wound.

Birmingham Fire and Rescue (BFR) personnel arrived on the scene and pronounced the victim deceased. BFR transported the juvenile victims to a local area hospital with non-life-threatening injuries.

The preliminary investigation suggests an adult male suspect entered the apartment and began firing shots at the victim.

We believe the victim and the suspect at one time were in a romantic relationship.

The suspect is not in custody.

If there is anyone who has information pertaining to the case, please contact the B.P.D. Homicide Unit @ **205-254-1764** or Crime Stoppers @ **205-254-7777**.

Anonymous tips can also be submitted to Crime Stoppers through the Birmingham Police Department's Mobile App on Android or IOS devices. Updates will be provided as information comes available.

This is Birmingham's **10th** murder investigation of 2023 with **1** justifiable death investigations). The Birmingham Police Department adheres to FBI Uniform Crime Reporting guidelines set for all law enforcement agencies across the United States. FBI Uniform Crime Reporting guidelines do not require law enforcement agencies to include justifiable death investigations in the total homicide investigations counts.

****The information is based on a preliminary and ongoing investigation, which continues to evolve as investigators interview witnesses, review physical and electronic records, and analyze forensic evidence. The Department's understanding of the facts and circumstances may change as additional evidence is collected and analyzed****
